Make a Difference When Every Second Matters

We know that in an emergency, every second counts. Sapphire's simple single hand cassette insertion, quick set-up, and intuitive workflows can improve response time **so you can focus on saving lives.**

Overcome Harsh Conditions

We understand life in a prehospital environment is filled with surprises and challenges. Sapphire is a durable and sturdy performer. Built to withstand drops and bumps, as well as splashing fluids, with a touch screen that can be operated even when wet, giving you the confidence needed to **initiate an infusion anytime, anywhere.**

Respond With Precision

We understand the unique needs of adults, pediatrics, and other populations. Sapphire can safely manage infusions for each of your patient sets with a wide flow rate range, industry-leading flow rate accuracy, and exceptional flow continuity. Preset programs, can be configured **to accommodate a variety of protocols and streamline pump programming.**

Control Your Investment

We know the costs of infusion pump maintenance and we offer a variety of Extended Service Programs to meet the needs of your organization. We can provide the tools and training to complete maintenance activities independently, **minimizing downtime and reducing operational costs.**
